4. Pull the pool cover reel into alignment with the pool at the Southwest corner.
5. Unhook the ends of the pool covers.
6. With another swimmer, remove the number of pool covers needed. Wrapping the pool cover neatly will help the longevity of the pool covers. **Always remember**, 1st cover off goes on the back reel, 2nd cover goes on top reel, 3rd cover goes on front reel. Even if you are taking only 1 cover off put it on the back reel, in case others come, so they can remove a cover too.
 - a. **Be careful not to get hit by the pool reel handle.**
 - b. The pool cover reel is heavy and awkward, please move it carefully
7. After you remove the pool covers, the deck may become a bit slippery from the cold weather. Put down some ice melt on the wet areas.
8. Empty the debris from the pool skimmer baskets in the trash.
9. Turn off the Johnny Vac by pressing the blue lite button.

10. Pull the cord of the Johnny Vac so the JV is along the north side of the pool at the 5 foot mark. Please leave it in pool. This unit is expensive and needs to be handled with care.
11. Sweep up leaves or trash on the pool deck.
12. Get in & enjoy your swim.

CLOSING THE POOL:

1. Basically the opening procedure is reversed
2. ***Replace the pool covers, secure the toggle ends of the pool covers to each other.***
3. If you are the last people scheduled to swim during the day or evening, start the Johnny Vac. Be sure it is in the pool on the North side 5 foot tile mark. Plug in & press the **ON** button. Be sure the JV starts moving and the cord is not tangled or caught on something. Press the start button again if it does not start moving. If there is a continued problem, turn **OFF**, unplug and please write a note in the BVS Aquatics Log Book in the Guard house office.
4. Pick up any trash, kick boards, towels, ETC.
5. If you see any problems or need to notify someone of an issue there is a "LOG IN" Book in the guard office. Please write your comments or questions.
